\*\*MLSO PROBLEM\*\* Sun Mar 5 20:42:48 GMT 2006

Hoike isn't displaying timelapse sequences correctly, it was displaying DOY 62 and 63 instead of 64, and it was displaying at a very slow rate. I tried stopping and restarting the "d4" setting and finally got it to display DOY 64 as well as 62 and 63, I think, or maybe it finally made it through all the images including DOY 64. I rebooted Hoike but still see the same problem.
