GONG COMMENT: Thu Mar 30 17:17:14 GMT 2006

I stowed and covered the turret on the way up this morning, the weather service predicts up to one foot of snow at the summits within the next few days due to a cold system to the NW.

WEATHER COMMENT: Thu Mar 30 23:05:20 GMT 2006

light rain now and then.

____end____

COMMENT: Fri Mar 31 01:00:58 GMT 2006

HelCo wants 2 meter readings for their Verizon accounts, Lynn gave me the meter numbers and would like for someone to call her back tomorrow or today with the readings, I'll try to get them and call her before she leaves at 4:30 today. Lynn's number is 969-0112. She couldn't tell me where the meters are so I called Lorna hoping she can give me a location so I can minimize walking around out in the rain. Lorna may call back tomorrow if not today but we won't need the info tomorrow since I'll get the readings today.

COMMENT: Fri Mar 31 01:22:23 GMT 2006

Talked to Lorna again and narrowed down the building locations, I'll leave now to get readings and then I'll call them in to Lynn.

8.75 MH onsite
