COMMENT: Tue Aug 8 21:53:17 GMT 2006

We have removed the tower equipment and loaded it into the GSA truck and have it

outside. Lunch break, then we'll see how much we can pack up for shipping on Thursday. The long crate is warped and broken, it needs repair before packing.

Finished repairing and packing the crate, it weighs 143 pounds. Finished packing the packing cases with everything, they are in their cardboard boxes too but those need to be sealed with tape. Everything except the crate needs to be weighed. Everything needs to be labeled with shipping address, and Fedex packing slip needs to be generated. All else done, a hard day's work, even for 2 people - Darryl and Allen.
