PICS COMMENT: Wed Oct 11 19:57:42 GMT 2006

#6 appears just right (see 1957 UT image) if centering is good.

previous image(1954 UT) is off center a bit and spill is occurring.

Trying occulter #5.

PICS COMMENT: Wed Oct 11 20:07:41 GMT 2006

Very fine edge of limb appears with #6 occulter. No limb appears on #5 occulter. I would call that the "correct" occulting for this time of year.

Since Alice requested 1 size larger, I will put in a #4 occulter until Boulder data folks decide which size they prefer. I will run a bunch of #5s for a while. Stopping to change header entry.
