PICS COMMENT: Sun Feb 11 20:12:11 GMT 2007

Instrument is paused so I can work on a problem, the Halle filter isn't being moved out of the lightpath as it should during the sequences.

PICS PROBLEM : Sun Feb 11 21:24:19 GMT 2007

The cable chain for the Halle filter stage broke. I couldn't find a spare anywhere so I clamped the stage with the Halle filter in and I left a note near the clamp and gears to remind us to unclamp it after we install a new cable chain. The clamp will keep the halle filter from moving around. I'll notify "Trouble" in Boulder so they can send us more cable chains. This cable chain has 38 links, a pitch of about 0.15", and coated cables that are about 0.033" diameter.
