
Mauna Loa Solar Observatory Observer's Log

Sat Dec 29 17:01:36 GMT 2007

Year: 07 Doy: 363

Observer: stueben

WEATHER COMMENT: Sat Dec 29 17:08:01 GMT 2007

Altostratus cover much of the sky, wind southeast 10-15 mph, temp 40F. Awaiting clearer skies before opening domes.

____end____

WEATHER COMMENT: Sat Dec 29 23:29:47 GMT 2007

Still overcast with no improvement in sight, orographic clouds building below cirrostratus/altostratus.
