
Mauna Loa Solar Observatory Observer's Log

Fri Dec 4 17:11:54 GMT 2009

Year: 09 Doy: 338

Observer: koon

WEATHER COMMENT: Fri Dec 4 17:11:55 GMT 2009

Mostly clear sky, some clouds and rain nearby, wind=30mph from the SW, temp=35F

____end____

COMMENT: Fri Dec 4 17:13:04 GMT 2009

No obs until I'm sure clouds and rain won't pass over MLSO.

____end____

WEATHER COMMENT: Fri Dec 4 19:35:51 GMT 2009

Still have a thin fog blowing over.

____end____

COMMENT: Fri Dec 4 21:45:42 GMT 2009

I took some pictures of the MLSO electrical system at the service entrances and the panels, and the ground system. I put the pictures on Kenobi in /data/tmp/MLSO Electrical Pictures for Boulders folks to download and for the UCAR electrician David Patterson to study in preparation for some modifications we will be doing to improve our resistance to brownouts and surges at MLSO.
