H-ALPHA COMMENT BY DARRYL: Sun May 23 19:19:27 GMT 2010

I put the old PSPT diffuser in front of the O1 w/ a little piece of duct tape holding it to the highest edge of the front of the telescope. I need to be careful not to bump the telescope because it is difficult to align. This is in response to Leonard's request for us to try to get some flats with a weak diffuser. This diffuser is weak and was used on the PSPT originally. We don't have any other diffusers here to try. I haven't changed the exposure times.

\_\_\_\_end\_\_\_\_

H-ALPHA COMMENT BY DARRYL: Sun May 23 19:45:48 GMT 2010

I removed the diffuser and put it on the PSPT table in case it needs to be used for this again soon.
