GONG PROBLEM COMMENT BY DARRYL: Tue Jul 20 20:20:34 GMT 2010

The "Caching System" field indicator was red on the GONG GUI and there was a message about the tape drive being disabled and that files couldn't be written to it. I checked the shelter and found the tape in DLT 1 drive was write-protected, I slid the tab back to allow writing to that tape to fix the problem, no error indicators or messages now.
