GONG PROBLEM COMMENT BY ALLEN : Thu Nov 18 23:11:13 GMT 2010

Communications to the gong shelter was down when I arrived today, apparently caused by changes to the fiber connections made to accomodate new users of the groundwinds building. After being unable to find any problems in our building or the gong shelter I got Preston from NOAA involved. After talking to NOAA Darryl they got it working again with a change where the gong fiber goes through the Keeling building.

****COMP PROBLEM COMMENT BY ALLEN**:** Fri Nov 19 01:55:37 GMT 2010

When I arrived this morning there was an email from steve saying that the diffuser had not been moving correctly and suggesting that I try cycling power to the newport controller. I did the power cycle and the diffuser worked.
