PSPT PROBLEM COMMENT BY DARRYL : Tue Dec 7 18:20:48 GMT 2010

Looks like the Sparc stalled during a reboot earlier, I rebooted it fully now.

NOTE BY DARRYL: Tue Dec 7 23:34:25 GMT 2010

The network conduit and cable are in place. Norman was up here too and he mounted a board to the inside of our North wall that is where the splice panel will go. The Splicers may be up here tomorrow. Besides splicing they need to add a short patch cable to the equipment that has already been

installed and then they need to add a few fiber optic boards to that equipment, then there is also a testing phase and a hand-off phase. We're getting there.
