**CHIP PROBLEM COMMENT BY DARRYL**: Sun Jan 23 18:58:39 GMT 2011
The power cord for the CHIP filter temperature controller wasn't attached this
morning and one of the wires on J4 was broken, this is due to the cable wrap
snagging on the pier as the spar moves.  This has happened several times over
the past half year though this is the first time I've seen it.  I changed
cable positioning and strain relief to eliminate the cable snagging, mainly
getting that lowest bunch of cables up higher.  I've shutdown CHIP now so that
I can go solder that wire from J4 back in place.

**CHIP PROBLEM COMMENT BY DARRYL**: Sun Jan 23 19:30:08 GMT 2011
Done soldering and finishing up CHIP cable fixes, manually pointed image to
North a little, back to regular observing.
