On Sunday I tested the vacuum pump w/o connecting it to the CoMP, it worked well so I'll try to use it today to improve the vacuum in CoMP.

CoMP COMMENT BY DARRYL: Tue Sep 13 19:35:59 GMT 2011

Pumping down the vacuum now, so far all seems to work OK. I'm doing this during the day rather than overnight because I'm unfamiliar with the process and I want to do it correctly and safely.

Vacuum is pumped down to 2E-6 torr, all went well. Can be filled and used tomorrow, didn't fill it tonight because we only have a little LN2 left but we'll get a delivery tomorrow.
