MKIV COMMENT BY BEN: Thu Jun 21 20:06:40 GMT 2012

Butter fingers slipped and triggered a second calibration today.

\_\_\_\_\_end\_\_\_\_\_

NOTE BY BEN: Thu Jun 21 20:06:55 GMT 2012

I found the shutter pinion grea l-brack wa a little loose. Tighting this seemed to address the problem allen saw yesterday. However it looks like there are sttill a few points where the shutter doesnt move smoothly so probally good to watch the dome closely during opening and closing.
