Tue Nov 5 21:31:12 GMT 2013: PSPT Abort Patrol

WEATHER COMMENT: stueben: Tue Nov 5 21:34:48 GMT 2013

In clouds again, instruments idled.

____end____

GENERAL OBSERVATORY COMMENT BY stueben: Tue Nov 5 23:35:19 GMT 2013

Shabar wouldn't run when I first tried it this morning. Later on upon investigation I found the power cord for the shabar power strip on the spar was unplugged.

Since there was no log or email about turning it off I plugged it in again. It was cloudy by then but it seemed to be working.
