
Mauna Loa Solar Observatory Observer's Log

Sun Dec 8 17:13:11 GMT 2013

Year: 13 Doy: 342

Observer: waters

WEATHER COMMENT: waters: Sun Dec 8 17:15:10 GMT 2013

Sky is completely covered with thick clouds with only a sliver of sky showing in the West. Temp is about 37F with windspeed at 11mph from the South-Southwest. Will wait for better conditions before opening the domes.

KCOR COMMENT BY waters: Sun Dec 8 17:21:54 GMT 2013

Hitting continue had the error come up every few seconds. Hitting stop brings up the MC4U Controller.vi Block Diagram rev.

483 with the box K-cor digital in highlighted (lower right hand side of screen).

Just restarted the computer as per Ben's instructions and it's all better. Thank you!

GENERAL OBSERVATORY COMMENT BY waters: Sun Dec 8 20:42:51 GMT 2013

Currently misting. Doesn't look too good.
