**KCOR PROBLEM COMMENT BY stueben **: Tue Dec 10 19:34:37 GMT 2013
Pointing seemed to be off, some amount of north spill. Perhaps from Ben removing
, cleaning reinstalling field lens yesterday? Stopped comp, adjusted guider
offsets for good kcor pointing, then adjusted comp occulter. After starting
kcor the focus seemed poor on the animated images so I stopped and went back to
the focus routine. The rcam focus seemed to be out quite a bit. Adjusted focus
manually and restarted, images look much better now.

Getting more light spill again on kcor (and comp),
adjusted sgs offsets improve centering.
