Thu Feb 13 19:24:19 GMT 2014: PSPT Start Patrol

WEATHER COMMENT: stueben: Thu Feb 13 19:24:52 GMT 2014

Denser clouds have cleared, but still too much cirrus to run comp and kcor.
Pspt started.

____end____

Thu Feb 13 22:56:02 GMT 2014: PSPT Abort Patrol

WEATHER COMMENT: stueben: Thu Feb 13 23:15:39 GMT 2014

In orographic clouds, instruments idled.

____end____

GENERAL OBSERVATORY COMMENT BY stueben: Fri Feb 14 01:38:37 GMT 2014

With much help from Preston from NOAA we did some investigation into the data
transfer speed problems we have been experiencing. Our backup router appears not to be working and the main router may hav
e some problems or need configuration
changes. Data tranfer speed directly from the Hawtel equipment appears to be the
full 25 megabits per second that we should be getting.

KCOR COMMENT BY stueben: Fri Feb 14 01:44:02 GMT 2014

Routed the cable for the camera focus heaters back to the kcor control box.
