****PSPT PROBLEM COMMENT BY stueben**** : Fri Apr 11 00:49:13 GMT 2014

Started to investigate focus problem. I moved the telescope to the position where the focus appears to begin to stick and then commanded moves with the "fcs goto xxxx" command on the pc. I could not get the focus to misbehave, it always went to the commanded position.

COMP COMMENT BY stueben: Fri Apr 11 01:05:51 GMT 2014

Steve downloaded and installed the new drivers and we can now talk to the meadowlark controllers. There are a few minor tweaks to be done tomorrow but comp is basically working again with its new computer.
