
Mauna Loa Solar Observatory Observer's Log

Fri Apr 25 16:14:08 GMT 2014

Year: 14 Doy: 115

Observer: waters

WEATHER COMMENT: waters: Fri Apr 25 16:14:17 GMT 2014

Semi-thick cirrus covering the Eastern horizon while thinner cirrus covers the rest of the sky at present. Temp 46F with wind speed at 16mph from the South-Southeast. Will wait for better conditions before starting Kcor and Comp.

____end____

GENERAL OBSERVATORY COMMENT BY waters: Fri Apr 25 16:36:40 GMT 2014

Cirrus seems to be thickening on the horizon. Will wait a bit longer before starting Pspt.

____end____

GENERAL OBSERVATORY COMMENT BY waters: Fri Apr 25 17:44:14 GMT 2014

Finally getting into some thinner cirrus. Starting Pspt.

____end____

Fri Apr 25 17:46:55 GMT 2014: PSPT Start Patrol

Fri Apr 25 17:48:26 GMT 2014: PSPT Abort Patrol

GENERAL OBSERVATORY COMMENT BY waters: Fri Apr 25 17:49:14 GMT 2014

Spoke too soon, Pspt idled.

____end____

Fri Apr 25 18:20:01 GMT 2014: PSPT Start Patrol

Fri Apr 25 18:24:59 GMT 2014: PSPT Abort Patrol

GENERAL OBSERVATORY COMMENT BY waters: Fri Apr 25 18:25:13 GMT 2014

Tried to start Pspt again but it was a sucker hole. Pspt idled again.

____end____

GENERAL OBSERVATORY COMMENT BY waters: Fri Apr 25 19:02:50 GMT 2014

Steve called about the ticket for Comp that Allen had put in yesterday. I hadn't seen anything in the log that was sent out but then I noticed that it was a repeat of Ben's log. Sent out Allen's log and noticed that he had figured out what had happened with Comp yesterday. Steve was relieved to hear that.

GENERAL OBSERVATORY COMMENT BY waters: Sat Apr 26 00:12:45 GMT 2014

Fixed a couple of the walk way planks. Might have to switch one out but so far it's holding. When swapping the batteries for the craftsman drill and putting it on the charger, the light for defective battery came on, the red light flashed and it wouldn't charge. Currently sitting next to the charger.
