PSPT PROBLEM COMMENT BY stueben : Thu Jun 12 17:16:38 GMT 2014

I had difficulty getting pspt to start up, error message "No Processes" in the xterm window. Had to reboot the sun workstation.

WEATHER COMMENT: stueben: Thu Jun 12 20:26:07 GMT 2014

In cirrus again, comp and kcor idled.

____end____

GENERAL PROBLEM COMMENT BY stueben : Thu Jun 12 20:27:47 GMT 2014

Mlsoserver has been doing its verify/rebuild thing (or is for some other reason very busy) since I arrived this morning. This messes up a number of things - access to mlsoserver is very slow, pspt mount failed, internet access from systems not having fixed addresses is intermittent or doesn't work at all.

____end____

WEATHER COMMENT: stueben: Thu Jun 12 21:17:07 GMT 2014

Orographic clouds are beginning to degrade images.

____end____

Thu Jun 12 21:55:45 GMT 2014: PSPT Abort Patrol

WEATHER COMMENT: stueben: Thu Jun 12 21:56:51 GMT 2014

In clouds, instruments idled.

____end____

WEATHER COMMENT: stueben: Fri Jun 13 01:43:04 GMT 2014

Blowing fog.
