GENERAL OBSERVATORY COMMENT BY waters: Wed Jun 25 21:04:58 GMT 2014

20:30UT to 20:40UT should have been labeled Science Data not engineering. Got too excited to have everything working to remember to hit the science button. Anywho, Alice has advised not to run Pspt today. Other than that, we're up and running for the most part. YEAH!!!!

GENERAL OBSERVATORY COMMENT BY waters: Wed Jun 25 21:23:56 GMT 2014

I'm going to wait a little bit to start kcor calibrations since it's about that time where the dome can occult the dome if not moving it fast enough.
