PSPT COMMENT BY berkey: Wed Feb 4 20:08:50 GMT 2015

I think pspt is back online. IP issue from monday was related to incorrectly setting the Pspt ipaddress to match the mlso server address. No wonder it was acting so funny. This also made mlso server unavaible for a period of time. And 20:17:35 we too the first PSPT picture in a week. (or more)

GENERAL OBSERVATORY COMMENT BY berkey: Wed Feb 4 22:59:13 GMT 2015

Winds are increasing and it is becoming difficult to safely walk around outside.

I am going to head out and try to do more pspt config checks from sea level.
