WEATHER COMMENT: stueben: Wed Jun 10 01:13:26 GMT 2015

Blowing fog.

____end____

PSPT PROBLEM COMMENT BY stueben : Wed Jun 10 01:14:04 GMT 2015

I haven't been able to get pspt running today. It points to the sun well but hangs up in the center sun routine when it tries to center the image on the ccd. It doesn't appear to be getting the image data. I looked at the J64 connector which we repaired recently and it looks OK. I also swapped in our spare FO cable and FO converter, but the problem persists.
