GENERAL COMMENT BY berkey: Mon Dec 14 18:15:10 GMT 2015

Took the opportunity of bad weather to give a tour to some local amateur astronomers who happened to be at MLO star gazing this morning.

GONG COMMENT BY berkey: Mon Dec 14 18:15:36 GMT 2015

Gong h-alpha images look kind of washed out due to the clouds.

****EVENT COMMENT BY berkey**** : Tue Dec 15 01:06:31 GMT 2015

There is some sort of evolution of the corona near PA45 between the 10am and 3pm images. Kind of looks like a streamer just jumps a bit south between the frames but it is hard to be sure since the whole images move a little.
