\*\*GENERAL PROBLEM COMMENT BY rose\*\* : Sun Jan 17 22:07:24 GMT 2016

tripped a circuit breaker, tried to use toaster at same time as the space heater. I couldn't find which one tripped to re set it. I don't want to flip breakers during construction. I will leave the breaker off it doesn't affect any of the science equipment. Only can't use microwave, toaster, and space heater on the plugs on the east wall.
