GENERAL COMMENT BY rose: Sat Dec 03 20:47:43 GMT 2016

Took my 4x4 up this morning but the road was drivable with a car up to the visitors parking lot. It looks like alot of the snow from yesterday has melted. The weather man last night called for 20"-30" more for the big island summits this week end. I am going to get going before that comes. I refilled COMP and will leave the observatory in a storm ready state in case I cannot get up tomorrow.
