GENERAL COMMENT BY berkey: Thu Mar 22 01:51:27 GMT 2018

SGS spent today running on a borrowed National instruments chassis. To test weahter our network issues were actually real ted to our backplane.

The borrowed chassis preforms properly so it looks like out device was damaged Feb 7th.

We are in the proess of RMAing the bad chassic. In the short term we will run on the borrowed chassis.
