GENERAL COMMENT BY berkey: Mon Apr 29 17:43:22 GMT 2019

The diffuser was out of the beam but incorrectly reported it was Mid in the header. Pushing the diffuser out button caused the header to update to Out.

GENERAL COMMENT BY berkey: Tue Apr 30 01:37:40 GMT 2019

Looks like the camera/modulator timing changes this morning didn't (or didnt completely) cleanup the trigger issues.

Of 8 stream data sets taken this morning 1 started up in the wrong modulation. Changes will remain in place for now.
