WEATHER COMMENT: waters: Wed Jun 26 16:18:13 GMT 2019

Temp 47F with windspeed at about 8-13mph from the South-Southwest. Sky has some thick cirrus in the East and to the North with lighter cirrus covering most the sky. Will wait for better conditions before opening up.

KCOR COMMENT BY waters: Wed Jun 26 23:30:11 GMT 2019

As per request, I vacuumed out the front box of K-Cor. I put all the filters in and opened the bottom/East facing door. With a flashlight in hand, I gently vacuumed the inside, being very careful of the filters, tracks and wiring. Made sure everything was closed up button tight.
