Observer: berkey

WEATHER COMMENT: berkey: Mon Dec 02 17:45:57 GMT 2019

Temp: 40.1f, Humidity: 21%, Pressure: 28.752in, Wind: 5mph from 189degs, Skies: heavy overcast

\_\_\_end\_\_\_

GENERAL COMMENT BY berkey: Mon Dec 02 21:39:42 GMT 2019

Got a version of the weather station code ported over to moonfish. At this point I think we have all of our services moved off of hale.

GENERAL COMMENT BY berkey: Mon Dec 02 22:55:04 GMT 2019

PM Blew off Kcor 01 opened windows.

\_\_\_end\_\_\_

GENERAL COMMENT BY berkey: Mon Dec 02 22:55:44 GMT 2019

Opened dome for a hole in the cirrus. Looks like I just caught the tail of it.

Cloudy again.

\_\_\_end\_\_\_

GENERAL COMMENT BY berkey: Tue Dec 03 01:26:15 GMT 2019

Cloud bands look like they will bring (heavy?) precipitation soon.

\_\_\_end\_\_\_

GENERAL COMMENT BY berkey: Tue Dec 03 01:32:35 GMT 2019

no data today.
