GENERAL COMMENT BY lisapg: Fri Aug 21 20:30:33 GMT 2020

Got an error while trying to quit socketcam

Error In Function Bufin Internal Error. FIFO overflow occurred.

After hitting okay multiple times to get rid of the error text box, I was able to quit socketcam fine and Kcor started up in the correct state.

GENERAL COMMENT BY lisapg: Fri Aug 21 20:46:34 GMT 2020

Kcor started okay but then almost immediately went into a bad polarization state. When I stopped Kcor acquisition GUI and quit socketcam, that same overflow error occurred. Stopping Kcor and restarting Kcor computer.
