**UCOMP PROBLEM COMMENT BY berkey**: Thu Jun 10 18:11:10 GMT 2021
UCoMP Lyot filter temps are identical. Seems like there is an issue with the cropico reading code.
UCOMP COMMENT BY berkey: Thu Jun 10 18:42:08 GMT 2021
Added an extra delay to the cropico read code ( was 200ms now 1000ms) this seems to have gotten us back good temps.
Data taken earlier this morning (maybe everything before 18:30UT) probably have bad lyot filter tuning, so the polariztati
on calibration data should be ignored.
I have not check if the temps were bad/identical yesterday (or earlier in the week).
