KCOR COMMENT BY lisapg: Fri Sep 03 17:53:48 GMT 2021

Kcor computer screen seemed to be flickering; the MC4U controller GUI was there and then wasn't and then came back again several times and the KCor Synoptic was going from being highlighted to highlighted and back again. Switching to that screen and clicking somewhere on the screen didn't immediately fix the flashing but it seems to be okay for now.

Kcor looked like it was in the wrong polarization state. Stopped and restarted Synoptic Acquisition to see if that helped.
