
Mauna Loa Solar Observatory Observer's Log

Sun Dec 19 17:52:21 GMT 2021

Year: 21 Doy: 353

Observer: lisapg

WEATHER COMMENT: lisapg: Sun Dec 19 17:53:33 GMT 2021

Temp: 37.2f with wind speed at about 10-15mph from the Southeast. Sky covered in altocumulus at present, waiting for better conditions before opening.

Took the road very slowly this morning, thankfully the roads were wet, no ice.

WEATHER COMMENT: lisapg: Sun Dec 19 18:49:12 GMT 2021

A winter weather advisory has been issued for the summits of the mountain this morning. Will keep an eye on the temperatures and will head down accordingly.

GONG COMMENT BY lisapg: Sun Dec 19 20:50:19 GMT 2021

Went down to the GONG shelter; the UPS had an alarm going off. When I went to put the batteries back on to charge, my finger slipped and I turned the whole system off. Brought everything back up immediately. Everything came back up and the UPS' alarm cleared.

GONG COMMENT BY lisapg: Sun Dec 19 20:50:41 GMT 2021

Stowed the turret as it started drizzling.

____end____

WEATHER COMMENT: lisapg: Sun Dec 19 23:40:51 GMT 2021

Temp: 44.5f with wind speed at about 5-10 mph from the North-Northeast. Sky is starting to clear overhead, however with clouds surrounding the observatory at the ground level, will wait for safer conditions before opening.
