Temp: 41.2f with wind speed at about 25-30 mph with gusts at about 33-35mph from the Southeast. Walking up the boardwalk was a bit difficult. While the sky is clear, going to wait until the wind calms down or we are facing away from the wind before opening.

GENERAL COMMENT BY lisapg: Mon Jun 13 04:41:44 GMT 2022

Due to the high winds, we were unable to take any data in the morning, however, this afternoon has been wonderful. The wind from the Southeast has kept the air clean this afternoon and the data looks very nice.
