WEATHER COMMENT: mcotter: Tue Aug 02 21:47:04 GMT 2022

Orographic clouds have made their way up to the vicinity of the science area, but so far have remained out of the viewing area of the instruments.

Tue Aug 02 22:14:49 GMT 2022 UCOMP Paused for clouds

Wed Aug 03 01:13:38 GMT 2022 UCOMP Restarted from pause

GENERAL COMMENT BY mcotter: Wed Aug 03 01:19:05 GMT 2022

The day started off clear with good observing conditions. In the early afternoon Orographic clouds came into the viewing area and observing was paused. After approximately an hour the dome was shut due to completely overcast skies with dark gray clouds. By mid afternoon the sky was totally overcast with steady rain, mist and dense fog.
