GENERAL COMMENT BY mcotter: Sun Sep 11 17:42:35 GMT 2022

The line of sight of the Spar has now gotten above the clouds that were located on the horizon and it is now pointing at some blue sky.

The instruments are now observing and so far the images look good.

GENERAL COMMENT BY mcotter: Sun Sep 11 22:02:41 GMT 2022

Poor day for collecting data. Upper level clouds were present from the start of the day with only a very brief window of blue sky to observe.
