

## Angeles Toddler 2-in-1 Kitchen Center

**MSRP \$630.00**

**SALE \$567.00**

### Highlights:

- Everything is put at toddler height
- Dials on the front and top of the stove move easily
- Plastic sink allows them to act out washing dishes
- Open cabinets remove the risk of fingers getting caught in hinges

**Age Group:** All Ages

**Unit Size:** 30" x 16" x 25"

For the very youngest of aspiring chefs, there is no better play set than the Toddler 2-in-1 Kitchen Center. Toddlers don't understand very much at their age, but they are sure to recognize the familiar sight of a kitchen. This set contains a both a sink and a stove, so that they can learn about food preparation and safety, as well as hygiene. Even if the meal is imaginary, it's still good for them to remember to wash their hands! The brightly colored faucet handles, as well as the knobs on the stove, can be easily turned back and forth by hand. And since the counter top is only 19 inches high, youngsters should have no problem reaching them. The sink even has a 'sprayer' on a flexible hose, which children can pull out to help with the dishes after the meal.
