

# PCIT Overview

PCIT Website: <https://pcit.aphis.usda.gov/pcit/>

The Phytosanitary Certificate and Issuance Tracking (PCIT) system automates the issuance of a Phytosanitary Certificate, including collection and tracking of its related information, for an eligible agricultural commodity being exported to foreign countries. Thousands of industry users and hundreds of federal and states duty stations are actively using PCIT.

**Hundreds of thousands  
of Phytosanitary  
Certificates have been  
issued using PCIT.**

## Coming Soon to PCIT

- ❖ All export certificates issued by State and County cooperators through PCIT will have a lower administrative fee.
- ❖ State Phytosanitary Certificates are being added to PCIT.
- ❖ Foreign export regulations currently housed in EXCERPT will eventually be housed and accessed within PCIT. No subscription fees will be required.
- ❖ Electronic transfer of Phytosanitary Certificates to foreign governments.
- ❖ PCIT continues to evolve and improve - driven by feedback from users like you!

## PCIT Benefits

### Fast...Secure...Easy!

- ❖ Streamlined user interface and templates for fast application creation.
- ❖ Submit and track your applications from anywhere in the country.
- ❖ View and print copies of applications and issued certificates.
- ❖ Securely pay for certificates in PCIT through Pay.Gov using a credit card or bank transfer. Checks are also accepted at duty stations.
- ❖ Held shipments are handled faster because the information is available electronically.
- ❖ PCIT information is being used to retain and expand market access for commodities.
- ❖ Reporting of PCIT data available at your fingertips.

PCIT is one of the most recognized systems in Government and a multi-award winning application. Log in to read more!
