Other than areas with high rates of defaults and foreclosures, grants may also be provided to approved counseling intermediaries based on a geographic analysis of the Nation by the NRC which determines where there is a prevalence of subprime mortgages that are risky and likely to fail, including any trends for mortgages that are likely to default and face foreclosure. A State Housing Finance Agency may also be eligible where the State Housing Finance Agency meets all the requirements under this paragraph. A HUD-approved counseling intermediary shall meet certain mortgage foreclosure mitigation assistance counseling requirements, as determined by the NRC, and shall be approved by HUD or the NRC as meeting these requirements.

No funds made available under this paragraph may be provided directly to lenders or homeowners to discharge outstanding mortgage balances or for any other direct debt reduction payments.

(3) The use of Mortgage Foreclosure Mitigation Assistance by approved counseling intermediaries and State Housing Finance Agencies shall involve a reasonable analysis of the borrower’s financial situation, an evaluation of the current value of the property that is subject to the mortgage, counseling regarding the assumption of the mortgage by another non-Federal party, counseling regarding the possible purchase of the mortgage by a non-Federal third party, counseling and advice of all likely restructuring and refinancing strategies or the approval of a work-out strategy by all interested parties.

(4) NRC may provide up to 15 percent of the total funds under this paragraph to its own charter members with expertise in foreclosure prevention counseling, subject to a certification by the NRC that the procedures for selection do not consist of any procedures or activities that could be construed as an unacceptable conflict of interest or have the appearance of impropriety.

(5) HUD-approved counseling entities and State Housing Finance Agencies receiving funds under this paragraph shall have demonstrated experience in successfully working with financial institutions as well as borrowers facing default, delinquency and foreclosure as well as documented counseling capacity, outreach capacity, past successful performance and positive outcomes with documented counseling plans (including post mortgage foreclosure mitigation counseling), loan workout agreements and loan modification agreements. NRC may use other criteria to demonstrate capacity in underserved areas.

(6) Of the total amount made available under this paragraph, up to \$5,000,000 may be made available to build the mortgage foreclosure and default mitigation counseling capacity of counseling intermediaries through NRC training courses with HUD-approved counseling intermediaries and their partners, except that private financial institutions that participate in NRC training shall pay market rates for such training.

(7) Of the total amount made available under this paragraph, up to 4 percent may be used for associated administrative expenses for the NRC to carry out activities provided under this section.

(8) Mortgage foreclosure mitigation assistance grants may include a budget for outreach and advertising, and training, as determined by the NRC.

(9) The NRC shall report bi-annually to the House and Senate Committees on Appropriations as well as the Senate Banking Committee and House Financial Services Committee on its efforts to mitigate mortgage default. The FAA is directed to include facility-by-facility data as well as a new benchmark for each facility for evaluating the proportion of certified controllers to controllers-in-training and developmental controllers. The agency is also expected to promptly implement strategies from the 2004 controller workforce plan and directs that the 2009 workforce plan include an update on the agency's progress. gram, but only after all base line tower obligations have been fulfilled.

Technical staffing requirements.—The FAA is directed to carefully monitor the size and capability of its technical workforce and to maintain agreed upon staffing levels. The FAA is directed to provide semi-annual updates to the House and Senate Committees on Appropriations as to the agency's technical staffing levels.

RNAV/RNP procedures.—Within the amounts provided for the air traffic organization, \$39,200,000 is included for RNAV/RNP procedures. FAA is directed to include a dedicated section for the FAA's performance based navigation program in future budget submissions and to provide semi-annual reports to the House and Senate Committees on Appropriations on the number of procedures developed, average cost and steps taken to streamline the procedure approval process.

TRACON security staffing.—The FAA is directed to evaluate the security staffing needs at the TRACON in Seattle, Washington and then allocate the appropriate level of staff to address any shortfall.

Aviation safety (AVS).—The bill provides \$1,164,597,000 for aviation safety, which is an increase of \$33,670,000 over the budget request and \$82,995,000 over the fiscal year 2008 enacted level. This amount includes \$16,900,000 to annualize safety personnel in AFS and AIR that are currently on-board. The bill includes no less than \$10,000,000 to increase aviation safety staff of which \$8,000,000 is directed for additional flight standards inspectors and \$2,000,000 is directed for aircraft certification inspectors and related staff.

The Secretary is directed to continue to provide an annual report on aviation safety employment data which delineates inspector losses and gains from the beginning of fiscal year 2009 until March 31, 2009. The report is due to the House and Senate Appropriations Committees by April 10, 2009. In addition, the FAA is expected to include the fully annualized cost of the additional inspectors in the fiscal year 2010 budget. If the FAA chooses not to fund these inspectors, the agency is directed to display changes to the aviation safety base program and how many inspector positions would be affected.

Additionally, the FAA is directed to establish a working group, including safety inspectors, to develop a benchmark to measure how much time inspectors spend in the field and to include that benchmark in the next inspector workforce plan. FAA is directed to provide semi-annual reports to the House and Senate Appropriations Committees on all overdue safety attribute inspections and element performance inspections including a target completion date.

Air transportation oversight system (ATOS).—The Department of Transportation Office of Inspector General (OIG) is directed to submit a report to the House and Senate Committees on Appropriations within six months of enactment which verifies the ATOS field data that is sent to FAA headquarters; describes the agency's analysis of that data; and, evaluates the effectiveness of FAA's use of the data.

Inspector staffing model.—The FAA is directed to notify the House and Senate Committees on Appropriations if the agency is

30 days delinquent on any of the milestones related to the safety inspector staffing model.

Medallion program.—Within the funds provided for aviation safety, \$2,375,000 is included to continue the Medallion program, a cooperative program to improve rural air safety in Alaska.

Professional aerial application support system.—The recommendation includes \$47,500 for the National Agricultural Aviation Research and Education Foundation’s Professional Aerial Application Support System. This program is designed to assist with agricultural pilot safety, operational security and the safe and accurate delivery of crop protection products.

Commercial space transportation.—The FAA is directed to provide semi-annual updates to the House and Senate Committees on Appropriations on commercial airspace test flight activities.

Workforce diversity plans for controllers and safety staff.—The FAA is directed to provide a further update to the workforce diversity plan required in fiscal year 2008 in order to measure the progress and specific efforts that the agency has made to eliminate barriers for underrepresented populations in the FAA’s controller and safety workforce. The submittal date for the plan is April 1, 2009.

ADMINISTRATIVE PROVISIONS—FEDERAL AVIATION ADMINISTRATION

Section 110 allows no more than 600 technical staff-years at the Center for Advanced Aviation Systems Development.

Section 111 prohibits funds for adopting guidelines or regulations requiring airport sponsors to provide FAA “without cost” building construction or space.

Section 112 allows the FAA to be reimbursed for amounts made available for 49 U.S.C. 41742(a)(1) as fees are collected and credited under 49 U.S.C. 45303.

Section 113 allows reimbursement of funds for providing technical assistance to foreign aviation authorities to be credited to the operations account.

Section 114 prohibits funds from being used to change weight restrictions or prior permission rules at Teterboro Airport in New Jersey.

Section 115 prohibits funds from being used to promulgate regulations that allow the Secretary of Transportation to auction air slots, impose congestion pricing at an airport, exact an air slot from a carrier, charge a fee for the right to use a specified portion of airspace, or establish policies that would encourage an airport to undertake such actions.

Section 116 prohibits funds limited in this Act for the Airport Improvement Program to be provided to an airport that refuses a request from the Secretary of Transportation to use public space at the airport for the purpose of conducting outreach on air passenger rights.

Section 117 requires the FAA Administrator to respond to the Committees on Appropriations and Commerce, Science and Transportation in writing within 60 days of the publication of any Government Accountability Office report on airspace redesign over the New York, New Jersey and Philadelphia region on the actions the agency intends to take in order to address any concerns or recommendations contained in the GAO report.

Section 118 allows all airports experiencing the required level of boardings through charter and scheduled air service to be eligible for funds under 49 U.S.C. 47114(c).

FEDERAL HIGHWAY ADMINISTRATION

LIMITATION ON ADMINISTRATIVE EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The bill limits obligations for administrative expenses of the Federal Highway Administration (FHWA) to \$390,000,000, which is \$4,880,000 less than the budget request and \$12,444,000 more than the fiscal year 2008 enacted level. The bill also includes language to make \$3,524,000 in contract authority above this limitation available to the Office of Inspector General (OIG) to conduct audits and investigations related to the FHWA and \$300,000 in contract authority above this limitation for the OIG’s annual audit

of the FHWA’s financial statements. In addition, \$3,124,000 in contract authority above this limitation is made available for the administrative expenses of the Appalachian Regional Commission in accordance with section 104 of title 23, United States Code.

FEDERAL-AID HIGHWAYS
(LIMITATION ON OBLIGATIONS)
(HIGHWAY TRUST FUND)

The bill limits obligations for the federal-aid highways program to \$40,700,000,000 in fiscal year 2009, which is \$1,301,271,774 more than the budget request and \$483,948,641 more than the fiscal year 2008 enacted level for the regular federal-aid highways program.

The fees so collected are not subject to any obligation limitation or the limitation on administrative expenses set for the infrastructure finance program under section 608 of title 23, United States Code.

Bridges.—The FHWA is directed to complete its initiatives to use a more risk-based, data-driven approach to its bridge oversight, take steps to address holes in the bridge oversight process, and achieve results from its efforts. Furthermore, the FHWA is directed to move forward with this process expeditiously and to provide semi-annual updates to the House and Senate Committees on Appropriations on the agency’s progress toward improving its oversight of bridge safety.

Interstate cost estimate.—The FHWA is directed to work with the appropriate State and local parties to expeditiously award funds that still remain available to Milwaukee, Wisconsin, for an Interstate substitution project authorized by section 1045 of Public Law 102–240, as amended, and for which a resolution regarding the disposition of these funds has been proposed allotting forty percent of the funds for Milwaukee County to purchase energy efficient buses and sixty percent for the downtown Milwaukee fixed rail circulator.

The bill also excludes safety programs and funds set aside within the State for population areas from this rescission and includes a provision that provides States with flexibility in how this rescission is applied.

APPALACHIAN DEVELOPMENT HIGHWAY SYSTEM

The bill provides \$9,500,000 for the Appalachian Development Highway System to be allocated for West Virginia Corridor H, which is \$9,500,000 more than the request and \$6,180,000 below the fiscal year 2008 enacted level.

DENALI ACCESS SYSTEM PROGRAM

The bill provides \$5,700,000 for the Denali access system program. The administration did not request any funding for this program for fiscal year 2009.

FEDERAL MOTOR CARRIER SAFETY ADMINISTRATION

MOTOR CARRIER SAFETY OPERATIONS AND PROGRAMS

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(LIMITATION ON OBLIGATIONS)

(HIGHWAY TRUST FUND)

(INCLUDING RESCISSION)

The bill includes a liquidation of contract authorization and a limitation on obligations of \$234,000,000 for the operating expenses of and motor carrier safety research by the Federal Motor Carrier Safety Administration (FMCSA). Of this limitation, \$8,500,000 is to remain available for obligation until September 30, 2011. The bill rescinds \$4,839,259 in unobligated balances from motor carrier safety operations. The bill provides funding in the following manner:

Program	Funding
Operating expenses	\$177,500,000
Research and technology	8,500,000
Information management	34,445,000
Regulatory development	9,680,000
Outreach and education	2,875,000
Commercial motor vehicle operators grants	1,000,000

The bill prohibits any funds relating to outreach and education from being transferred to another agency. Of the funds provided for information management, at least \$12,849,000 is directed solely for the COMPASS initiative. Funds provided for regulatory development shall only be used for the development of regulations, standards, and guidance.

High risk carriers.—FMCSA is directed to spend an additional \$500,000 to increase the number of compliance reviews on high risk carriers. The agency should achieve this increase by reducing other low priority expenses within its operations budget outside of the areas of inspection and enforcement. The bill directs FMCSA to provide semiannual reports to Congress on the agency's progress in meeting the high risk carrier requirements contained in SAFETEA-LU. The reports are due March 30, 2009, and September 30, 2009.

Americans with Disabilities Act compliance.—In July 2008, the Over-the-Road Bus Transportation Accessibility Act of 2007 was signed into law. This law makes clear FMCSA's responsibility to enforce ADA regulations related to motorcoach accessibility. Under this law, FMCSA must deny or revoke operating authority to any over-the-road bus operator violating DOT's ADA requirements. FMCSA is directed to include information in its fiscal year 2010 budget submissions on how it has used this authority, providing detailed information on the number of enforcement actions and operation authority revocations or denials that have resulted from this law.

Reports.—In past years FMCSA has submitted reports to the Committees on Appropriations woefully past the report's deadline. To underscore the importance of these reports, if the pattern of lateness continues in fiscal year 2009 the Committees will consider including language reducing the amount of the agency's appropriation by \$100,000 for each day any report is late. Any reduction levied will be taken from the Office of the Administrator.

FMCSA is directed to submit a letter report to the Committees on Appropriations by April 1, 2009, providing a detailed timeline for the implementation of a national database of positive and refusal-to-test drug and alcohol test results.

Research and technology funding report.—FMCSA is directed to submit a report to the Committees on Appropriations by May 1, 2009, that outlines how all of its research and technology funding will be utilized. It is expected that the FMCSA research and technology program will focus on bringing low cost, effective safety technologies to commercial motor vehicle carriers, such as braking and lane departure warning systems.

Spend plan.—FMCSA is directed to submit a spend plan to the Committees on Appropriations which details the timeline, cost, and capability of CSA 2010 through full deployment within 90 days of enactment of this act.

COMPASS funding.—FMCSA is directed to submit a report to the Committees on Appropriations by April 15, 2009, that describes in detail how COMPASS funding will be utilized in fiscal year 2009 and what functions this funding will provide to the agency and its users.

ADMINISTRATIVE PROVISIONS—FEDERAL MOTOR CARRIER SAFETY
 ADMINISTRATION

Section 135 subjects funds appropriated in this Act to the terms and conditions of section 350 of Public Law 107–87 and section 6901 of Public Law 110–28, including that the Secretary submit a report on Mexico-domiciled motor carriers.

Section 136 prevents the Department from using any funds to establish, implement, continue, promote, or in any way permit a cross-border demonstration program with Mexico.

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION
 OPERATIONS AND RESEARCH

The bill provides \$127,000,000 from the general fund for highway and traffic safety activities, an increase of \$428,000 over the fiscal year 2008 level. Of this amount, a total of \$31,670,000 shall remain available until September 30, 2010.

The bill includes a provision carried since fiscal year 1996 that prohibits NHTSA from obligating or expending funds to plan, finalize, or implement any rulemakings that would add requirements pertaining to tire grading standards that are not related to safety performance.

OPERATIONS AND RESEARCH
 (LIQUIDATION OF CONTRACT AUTHORIZATION)
 (LIMITATION ON OBLIGATIONS)
 (HIGHWAY TRUST FUND)

The bill provides an appropriation for liquidating cash of contract authorization of \$105,500,000 from the highway trust fund for payment of obligations incurred in carrying out the provisions of the highway safety research and development program as authorized by section 403 of title 23, United States Code, and specifies that the funds are available until expended.

The bill limits obligations from the highway trust fund to \$105,500,000 for authorized activities associated with the highway safety research and development program, as proposed by the budget request. Of this limitation, a total of \$26,908,000 shall remain available until September 30, 2010, and shall be in addition to any limitation imposed on obligations in future fiscal years.

The following table summarizes the total funding level provided in the bill for operations and research (general fund and highway trust fund combined) by budget activity. The funds provided from the highway trust fund are to be used consistent with the budget request.

Salaries and benefits	\$69,353,000
Travel	1,018,000
Operating expenses	24,897,000
Contract programs:	
Safety performance (rulemaking)	16,968,000
Safety assurance (enforcement)	18,077,000
Highway safety programs	43,609,000
Research and analysis	58,578,000
	<hr/>
Total	\$232,500,000

ADMINISTRATIVE EXPENSES

The bill provides \$95,268,000 for NHTSA's salaries and benefits, travel, and other operating expenses, as requested in the budget. This funding level is sufficient to fund 635 full-time equivalent staff years.

SAFETY PERFORMANCE (RULEMAKING)

The bill provides \$16,968,000 for the agency’s safety performance standards (rulemaking) programs, an increase of \$300,000 over the budget request and \$4,200,000 over the fiscal year 2008 level.

Fuel Economy.—In order to ensure that NHTSA has sufficient funding to meet the critical deadlines set by Congress in the Energy Independence and Security Act (EISA), the bill provides \$4,180,000 for the agency’s fuel economy program, which is \$2,300,000 more than the fiscal year 2008 enacted level and \$300,000 more than the President’s request. This funding is to be used to implement the requirements of the EISA Act, including the evaluation of fuel economy standards for trucks as well as labeling fuel economy information.

New car assessment program (NCAP).—Within the funds provided, the bill includes \$10,393,000 for NCAP, as requested, which will allow NHTSA to continue to test the same number of vehicle models while incorporating additional tests and technologies into the program.

SAFETY ASSURANCE (ENFORCEMENT)

The bill provides \$18,077,000 for safety assurance (enforcement) activities, which is \$600,000 above the budget request and \$200,000 below the fiscal year 2008 enacted level.

Safety Defects Investigations.—The bill includes \$9,829,000 for safety defects investigations, an increase of \$600,000 above the request, to ensure that NHTSA will not defer efforts to examine emerging technologies, such as crash avoidance technologies.

HIGHWAY SAFETY PROGRAMS

The bill provides the following amounts for highway safety programs:

Impaired driving	\$11,206,000
Drug impaired driving	1,488,000
Pedestrian, bicycle, and pupil transportation	1,653,000

In addition, NHTSA is directed to integrate these plans into future budget submissions and include appropriate quantifiable measures of success.

Pedestrian, bicycle, and pupil transportation.—The bill includes \$1,653,000 for pedestrian, bicycle, and pupil transportation activities, which is \$200,000 above the budget request and \$12,000 below the fiscal year 2008 enacted level in order for NHTSA to continue to explore the emerging issue of blind pedestrian safety related to “quiet” vehicles, such as hybrids. Furthermore, NHTSA is directed to submit a report to the House and Senate Committees on Appropriations by no later than June 1, 2009, describing specific passenger motor vehicle design and performance countermeasures that will reduce pedestrian crash deaths and injuries that are being adopted and implemented by international organizations and other countries such as the Economic Commission for Europe and Japan. The report should include recommendations on how and when the agency could implement pedestrian crashworthiness improvements.

HUD is directed to coordinate with the VA and DOL to select a limited number of urban and rural sites to test and evaluate prevention methods. Funding will be used by selected grantees to help veterans, as well as any dependent family members, find and maintain housing, including up to 18 months of rental assistance, first and last month's rent, back rent or other related services as appropriate. The VA budget includes funds to support this effort by providing case management, referral, and other supportive services. of capital financing, including the low income housing tax credit. In particular, the Department is urged to outsource the post-award processing of development applications to state housing finance agencies, as recently authorized, where such action will shorten the project development timeline without demonstrable loss in quality monitoring and oversight.
