After heavy rain during the morning of June 19th which caused flash flooding along Poplar Creek, flooding continued through the evening of June 20th. Several roads on the southeast side of Elgin in Cook County remained closed. Streets that were impassible included Willard Avenue between Sharon Court and Laurel Street; the intersection of Varsity and Maroon Drives; Hammond Avenue between Lavoie Avenue and Liberty Street; the south ends of Liberty, Lavoie, and Illinois Avenue; the area around Ramona Drive and Willard; part of Ramona in Villa Garden Estates mobile home park; and the intersection of Sadler Avenue and Jan Marie Drive in Old Oak Estates mobile home park.

**Strong to severe thunderstorms moved across northern Illinois from mid morning through early afternoon, producing numerous reports of hail, heavy rain, flooding and flash flooding. The City of Chicago reported almost 200 tree emergencies which includes damage to tree limbs, partial trees or entire trees.**

Ogle County Emergency Management received 40 flash flooding reports during the evening of June 19th. Some of the most significant flooding included a home on Gale Road west of Oregon that was surrounded by fast moving flood waters. A nearby drainage ditch had several feet of fast moving flood water. Thirty campers had to be evacuated through flood waters from the Rock River Marina & Campground on River Road near Oregon where nearly 5 inches of rain was reported. Numerous streets were flooded and closed in Oregon, Polo, and Mt. Morris. Some rural roads between Oregon and Polo were washed out. Damage was reported to several shoulders of rural roads. A restaurant in Oregon had to close due to flooding. The Tracks and Summer Recreation facility on Pines Road was flooded with several feet of water.

Heavy rain caused flash flooding across parts of Winnebago County during the evening of June 19th. The Rockford Airport measured 3.59 inches of rain, 3.25 inches of which fell in just one hour, between 5pm and 6pm CST. Fourteen inches of flowing water was reported at the intersection of Woodridge and Javilin Roads. A car was stranded in flood water at Alpine and Newburg Roads and the driver had to be rescued. Two feet of standing water was reported on Perryville Road just south of State Street. Six to ten inches of water was reported at the intersection of 11th Street and 22nd Avenue. Ten inches of water was reported on Lyford Road just south of State Street. Railroad tracks were washed out near Mulford Road causing a train derailment which resulted in a large fire. One person was killed and nine others were injured by the blast, while waiting at the crossing in their vehicles.

## Storm Data and Unusual Weather Phenomena - June 2009

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
<p>A tornado touched down near Highway 14 and Davis Road. At this location, several pine trees had large branches sheared and topped off with two of the trees partially uprooted. At this point the tornado was rated EF0 with winds estimated near 85 mph and a path width of 20 yards. The tornado continued northeast, crossing Highway 14, into a neighborhood where it increased in intensity and produced damage to structures and trees. Damage in the area was to a garage adjacent to a main house. This well built and fairly new garage was lifted and turned off of its foundation, which was securely bolted to a concrete finish. Damage at this location was rated EF1 with winds estimated near 100 mph and a path width of 75 yards. The tornado proceeded to move northeast through the neighborhood where it uprooted four old but healthy soft and hard wood trees. Just to the northeast of this neighborhood is a commercial district where the tornado produced damage to two buildings. Damage occurred to the roof of one building with the other building sustaining damage to one of its exterior walls. The wall was partially collapsed but it was an older structure. EF1 damage was produced at this point with winds estimated near 100 mph and a path width of 30 yards. The tornado weakened as it moved northeast, producing damage to trees near and along Lake Road. The tornado appeared to have lifted with no other damage evident beyond this point.</p>

	06/22/09 10:00 CST		0	Source: Emergency Manager
Flash flooding occurred in many parts of Ogle County on June 19th. A few days later, heavy rain once again caused flash flooding across many of the same areas. Some of the more significant flash flooding reports included an apartment building that was flooded in Polo. One family was evacuated. The Lost Nation Bridge was washed out which cut off access to 30 homes. Pines Road at White Pines State Park was totally inundated with two homes sustaining major damage. Several trails in White Pines State Park were washed away or damaged. A small area of railroad tracks were washed out between White Pine State Park and Lake LaDonna Family Campgrounds. Flood water came over a bridge on Flagg Road. Parts of Hoosier Road were washed out. Grist Mill at Stone Hill was closed due to a wash out. Flooding was reported on numerous roads across the county.				
<b>Heavy rain fell across parts of northwest Illinois during the early morning hours of June 22nd which caused flash flooding.</b>
