

The Center for the Study of Aphasia Recovery (C-STAR)

at the University of South Carolina **Aphasia Laboratory** through the Department of Communication Sciences and Disorders is pleased to invite you to attend the following presentation.

The course is free but you must register in advance and pay the ASHA CE Registry fee to be eligible for ASHA CEUs.

The Famous People Protocol (FPP) : A Functional Assessment Tool for Aphasia

Date/Time: Thursday, April 19th, 2018 / 2:00-3:00 PM

Location: USC Aphasia Lab, 915 Greene St., Discovery Bldg., Columbia, SC 29208
(remote participation via live, online streaming is also an option)

Presenter: Dr. Audrey Holland

Audrey L. Holland, Ph.D., CCC-SLP, BC-ANCDS, has had a long career as a researcher, teacher and clinician in Speech-Language Pathology. Retired from the University of Arizona, she currently writes and consults in the general area of Aphasia. She serves as a consultant to AphasiaBank, as well as to the C-STAR program. She is a recipient of the Honors of the American Speech, Language, & Hearing Association and has published over 145 research articles, book chapters, and reviews, in addition to editing three books.

Disclosures:

Financial: Dr. Audrey Holland is a consultant to the AphasiaBank Grant #R01-DC008524. She is receiving an honorarium for this presentation from the University of South Carolina Aphasia Lab through a National Institute on Deafness and Other Communication Disorders Grant #DC014664 (PI: Julius Fridriksson).

Non-Financial: Dr. Audrey Holland has no relevant nonfinancial relationships to disclose.

University of South Carolina, Department of Communication Sciences and Disorders is approved by the Continuing Education Board of the American Speech-Language-Hearing Association (ASHA) to provide continuing education activities in speech-language pathology and audiology. See course information for number of ASHA CEUs, instructional level and content area. ASHA CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.

This course will be offered for .1 ASHA CEUs (Introductory level, Professional area)

Objectives:

After this presentation, participants will be able to:

1. Describe a systematic way to assess word retrieval and some of its alternatives in their aphasic clients.
2. Recall the data concerning the reliability of a new approach to assessment in aphasia.
3. Explain tactics tailored to give their clients alternative ways to solving their word retrieval problems.

Agenda:

2:00-2:15 - Purpose and development of the Famous People Protocol (FPP) including stimuli selection and scoring guide.

2:15-2:30 - Finalization of the FPP with reliability data review.

2:30-3:00 - Examples of how SLPs can use performance on the FPP to develop effective, treatment strategies to help clients get their messages across.

To register for this event, please go to:

<https://goo.gl/forms/AA5EwGsOhwoOxnZb2> by **April 5th, 2018**.

If you have any questions or need assistance, please contact Hanh Adkins at:

contact@uscaphasialab.com or 803-777- 4918.
