## **Motor recovery after stroke: conceptual puzzle, pragmatic challenge**

John W. Krakauer, MA, MD

Johns Hopkins University, School of Medicine, Department of Neurology

Basic science in animal models suggests a way forward for human neurorehabilitation: higher doses and intensities of therapy, especially early after stroke. But what should the therapy consist of and how should we measure its efficacy?

---

The lecture will be held at Johns Hopkins University. However, it will be broadcast live to USC:

**Room #140, Discovery I, 915 Greene Street, Columbia, SC 29208**

Date: Thursday, October 25<sup>th</sup> 2018, Time: 2pm – 3pm ET

**The viewing event will be catered!**

The lecture can also be followed online from your computer, tablet or smartphone, via the following GoToMeeting address (no password required): <https://global.gotomeeting.com/join/667426173>

You can also dial in using your phone.

United States : +1 (872) 240-3412

Access Code: 667-426-173
