NWIS AB APPROVED TO ACCESS THE TRS NUMBERING DIRECTORY AS A QUALIFIED DIRECT VIDEO ENTITY

CG DOCKET NOS. 03-123 & 10-51

The Consumer and Governmental Affairs Bureau (Bureau) of the Federal Communications Commission (Commission) approves the application of nWise AB (nWise) for access to the Telecommunications Relay Services (TRS) Numbering Directory (Directory) as a Qualified Direct Video Entity, effective immediately.¹ As discussed below, we find that nWise demonstrates a legitimate need for access to the TRS Numbering Directory and an awareness of its regulatory obligations.²

Background. In 2019, to enable more effective direct video communication using American Sign Language (ASL) between consumers with hearing or speech disabilities and customer support call centers, the Commission modified its rules to allow qualifying entities to seek certification for access to the Directory.³ Such Directory access, which is available to a “Qualified Direct Video Entity,”⁴ facilitates the routing of direct video calls between VRS users and customer support call centers.⁵

¹ See 47 CFR § 1.102(b) (providing that non-hearing actions taken pursuant to delegated authority be effective upon release of the document with the full text of such action).

² See *id.* § 64.613(c)(2). The TRS Numbering Directory contains routing information for North American Numbering Plan telephone numbers assigned to video relay service (VRS) users and certain other video communication users. *Id.* § 64.613.

⁴ A “Qualified Direct Video Entity” is an individual or entity that is approved by the Commission for access to the TRS Numbering Directory, that is engaged in direct video customer support, and that (1) is the end-user customer that has been assigned a telephone number used for direct video customer support calls or (2) is the designee of such entity. 47 CFR § 64.601(a)(34). “Direct video customer support,” in turn, is a “telephone customer support operation that enables callers with hearing or speech disabilities to engage in real-time direct video communication in ASL with ASL speakers in a call center operation.” *Id.* § 64.601(a)(15).

⁵ *Direct Video Access Order*, 34 FCC Rcd at 3396, para. 1; see also 47 CFR § 64.613(c)(1). These rules became effective October 23, 2020. On December 17, 2020, nWise filed an application with the Bureau seeking access to the Directory as a Qualified Direct Video Entity.⁶

nWise's Qualifications. The Commission may approve an application for Directory access if the applicant demonstrates a legitimate need for such access and an awareness of its regulatory obligations.⁷ These obligations include compliance with the rules and regulations governing VRS providers' access to use of the Directory, instructions of the TRS Numbering administrator, and applicable standards pertaining to privacy, security, reliability, and interoperability.⁸

We approve nWise's application for access to the Directory. nWise has provided the following information required by our rules: (1) the applicant's name, address, telephone number, and email address; (2) a description of the service to be provided; (3) an acknowledgment that Directory access is conditional on compliance with applicable Commission rules, obligations, and standards; (4) contact information for personnel responsible for such compliance; and (5) certification that the applicant's description of service meets the definition of direct video customer support and that the information provided is accurate and complete.⁹ This information and other material provided in the application sufficiently demonstrate nWise's legitimate need to access the Directory and its awareness of its regulatory obligations.¹⁰ This authorization shall remain in effect until terminated pursuant to section 64.613(c)(3) of the Commission's rules.¹¹

People with Disabilities. To request materials in accessible formats for people with disabilities (Braille, large print, electronic files, audio format), send an e-mail to fcc504@fcc.gov or call the Bureau at 202-418-0530 (voice).
