List includes providers that historically were non-responsive, but may no longer show up in tracebacks or now participate.
List only includes providers that did not respond to 3 or more tracebacks.

The list includes tracebacks of robocalls, as defined in the TRACED Act.
It may exclude tracebacks of other illegal calls conducted by the ITG.

Provider Name	Country	Participation Count	Count No Response / Refuse to Provide	Last Participation	Last No Response	No Response / Refuse to Provide Reason
Lexico Telecom LTD / Lextel LTD	Latvia	108	190	2023-12	2022-08	noc@foneping.com Innovative Tech LLC we dont have other email for this client and any other contact info
Fugle Telecom LLC	United States		116		2022-07	Provider did not respond within allotted time period
Telesero / Fiducia	United States	12	114	2021-03	2021-03	Provider did not respond within allotted time period
Deutsche Telekom / DTAG / Telekom Deutschland GmbH	Germany		112		2022-06	TDG traceback actions depend on the following restrictions: 1. Traceback demands are generally requested by the national regulatory authorities like Bundesnetzagentur (BNetzA) in Germany or national police, 2. TDG interconnection contracts are limited by NDA and/or compliance rules potentially avoiding a complete traceback information.

AKA Management	United States	106	21	2022-08	2020-09	Aug 26, 2020 note from provider for this hop: "Unfortunately, it is a violation of the agreement by AKA to disclose confidential information regarding our customers and vendors. However, the offending customer has been notified, the ANI has been blocked, and this customer's traffic has been removed pending resolution of said situation." The ITG form requesting traceback information and the description of the particular campaign involved does clearly state that blocking the calling number / ANI is insufficient and not effective.

						We are not allowed to share this callers CPNI information, it will need to go through T-Mobile security. [Note from ITG Team: T-Mobile shares upstream carrier information as part of its standard traceback procedure but requires a legal request for individual customer details given its obligations to protect CPNI and the fact that individual mobile subscriber origination is not currently a common vector for illegal robocalls.]

Integral Worldwide Limited	United Kingdom	45	3	2023-11	2021-01	We got this call from an upstream voice service client we have a contract and NDA with for Multiple destinations including USA. Our contract does have the clause that the customer need to comply with USA regulations and based on the breach of the same, we would be terminating USA business with this client and block them for this destination. We can not thought breach our NDA with the client and regret to inform that we do not have the option to share the customer details at this time. We apologize for the issue caused and we are always vigilant to avoid any issues causing regulation concerns. We do have the clause for USA and UK regulations on our customer contracts. Attaching the same for your review
Horizon Solutions	Pakistan		3		2020-12	"Goninja dailer the guy who provides us that dailer is from other city I guess and we got in touch through Facebook messenger .so we are unavailable to provide you such details hope you understand." - Horizon Solutions does not have enough information to share about their customer.

List includes providers that historically were non-responsive, but may no longer show up in tracebacks or now participate.
List only includes providers that did not respond to 3 or more tracebacks.

The list includes tracebacks of robocalls, as defined in the TRACED Act.
It may exclude tracebacks of other illegal calls conducted by the ITG.

Provider Name	Country	Participation Count	Count No Response / Refuse to Provide	Last Participation	Last No Response	No Response / Refuse to Provide Reason
Deutsche Telekom / DTAG / Telekom Deutschland GmbH	Germany		81			TDG traceback actions depend on the following restrictions: 1. Traceback demands are generally requested by the national regulatory authorities like Bundesnetzagentur (BNetzA) in Germany or national police, 2. TDG interconnection contracts are limited by NDA and/or compliance rules potentially avoiding a complete traceback information. 3. The legally prescribed storage periods for traffic data e.g. in Germany: The storage of traffic data is limited to 7 days in Germany. As described in TDG's Robocall Mitigation Plan, available on the RMD, TDG has implemented a Robocall Mitigation Program that includes reasonable steps to avoid originating illegal robocall traffic.
