Department of Defense Annual Matching Activity Report

Description of Contents Calendar Year 2019

In accordance with the reporting requirements established in the Privacy Act of 1974, as amended by the Computer Matching and Privacy Protection Act of 1988, and Office of Management and Budget Circular No. A-108, "Federal Agency Responsibilities for Review, Reporting, and Publication under the Privacy Act," dated December 23, 2016, the following is provided:

- a. Current information about the composition of the Data Integrity Board, including:
 - (1) a list of the names and positions of the members of the Data Integrity Board;
 - (2) the name and contact information of the Data Integrity Board's secretary; and
 - (3) any changes in membership or structure of the Data Integrity Board that occurred during the year.

See Attachment A for the names and positions of the members of the Data Integrity Board, and the name and contact information of the Data Integrity Board's secretary. There were four changes to the Data Integrity Board in 2019: the contacts for Army, Air Force, and the Inspector General changed, and the Joint Server Provider of the Defense Information Systems Agency was removed after the member retired and the construction of the board was reviewed.

- b. A list of each matching program in which the agency participated during the year. For each matching program, the report shall include:

- (1) A brief description of the matching program, including the names of all participating Federal and non-Federal agencies;

See Attachment B.

- (2) The links to the matching notices and matching agreements posted on the agency's website at:

<http://dpcl.d.defense.gov/privacy/matching-agreements>

- (3) An account of whether the agency has fully adhered to the terms of the matching agreement.

The DoD periodically reviewed the agreements to ensure full compliance and to determine whether a renewal or re-establishment was necessary.

(4) An account of whether all disclosures of agency records for use in the matching program continue to be justified.

The DoD carefully reviews each matching agreement upon establishment and renewal to help ensure only disclosures of Privacy Act-covered records that are necessary to the matching agreement occur. For all external disclosures, DoD ensures appropriate routine uses are in place and maintains an accurate method for accounting of disclosures.

(5) An indication of whether a cost-benefit analysis was performed, the results of the cost-benefit analysis, and an explanation of why the agency proceeded with any matching program for which the results of the cost-benefit analysis did not demonstrate that the program is likely to be cost effective.

A cost benefit analysis was performed for each of the eight matching programs, and all were favorable or resulted in a conclusion that the match was justified. See Attachment B.

c. For each matching program for which the Data Integrity Board waived the requirement for a cost-benefit analysis, the reasons for the waiver.

None. A cost benefit analysis was performed for all eight matching programs.

d. A description of any matching agreement that the Data Integrity Board disapproved and the reasons for the disapproval.

None.

e. A description of any violations of matching agreements that have been alleged or identified, and a discussion of any action taken in response.

None (non-significant changes and clarifications may be noted in renewal agreements).
