# SOUTHEAST FLORIDA ACTION NETWORK

SEAFAN

Southeast Florida Action Network (SEAFAN) is a community-based marine incident reporting and response program dedicated to improving the protection and management of Southeast Florida's coral reefs.

SEAFAN collects incident reports from the northern third of Florida's Coral Reef from the northern border of Biscayne National Park in Miami-Dade County to the St. Lucie Inlet in Martin County.

Everyone can make a difference by acting as the eyes and ears of the reef!

THREE WAYS
You Can Help Protect
FLORIDA'S CORAL REEF

1. REPORT MARINE INCIDENTS TO SEAFAN

You can report a marine incident online at **www.SEAFAN.net** or by calling the SEAFAN hotline at 866-770-SEFL (7335). No special training is required! Just report what, when and where the incident was observed and SEAFAN will coordinate a response.

Vessel Groundings	Anchor Damage	Fish Kill & Disease	Marine Debris	Other Incidents
Coral Disease & Bleaching	Harmful Algal Blooms	Discolored Water	Invasive Species	Thermoclines

2. PARTICIPATE IN REEF AND BEACH CLEANUPS

You can help keep Florida's Coral Reef clean by reporting any large debris items to SEAFAN and participating in local reef and beach cleanup events! For a list of cleanup events in your area, visit **www.SEAFAN.net/MarineDebris**.

3. JOIN THE BLEACHWATCH DIVE TEAM

If you are a snorkeler or diver, attend a free 2-hour training class to learn how to identify coral bleaching and disease and how to submit reports online.

Our network of trained BleachWatch Observers help us monitor coral condition and reef health. For more information and a schedule of training classes, visit **www.SEAFAN.net/BleachWatch**.
