

Reportable Animal Disease For Species

Disease Name	Species Name
Infection with <i>Batrachochytrium dendrobatidis</i>	Amphibian
Infection with <i>Batrachochytrium salamandrivorans</i>	Amphibian
Infection with <i>Ranavirus</i> species	Amphibian
Other	Any
Infection of honey bees with <i>Melissococcus plutonius</i> (European foulbrood)	Apian (bee)
Infection of honey bees with <i>Paenibacillus larvae</i> (American foulbrood)	Apian (bee)
Infestation of honey bees with <i>Acarapis woodi</i>	Apian (bee)
Infestation of honey bees with <i>Tropilaelaps</i> spp.	Apian (bee)
Infestation of honey bees with <i>Varroa</i> spp. (Varroosis)	Apian (bee)
Infestation with <i>Aethina tumida</i> (Small hive beetle)	Apian (bee)
Avian infectious bronchitis	Avian (bird)
Avian infectious laryngotracheitis (ILT)	Avian (bird)
Avian influenza	Avian (bird)
Avian influenza, high pathogenic	Avian (bird)
Avian influenza, low pathogenic	Avian (bird)
Avian mycoplasmosis	Avian (bird)
Avian mycoplasmosis (<i>Mycoplasma gallisepticum</i>)	Avian (bird)
Avian mycoplasmosis (<i>Mycoplasma synoviae</i>)	Avian (bird)
Duck virus hepatitis	Avian (bird)
Fowl cholera (<i>Pasteurella multocida</i>)	Avian (bird)
Fowl typhoid (<i>Salmonella Gallinarum</i>)	Avian (bird)
Infectious bursal disease (Gumboro disease)	Avian (bird)
Infectious coryza (<i>Avibacterium paragallinarum</i>)	Avian (bird)
Japanese encephalitis	Avian (bird)
Livestock exposed to toxic substances which may threaten public health	Avian (bird)
Marek's disease	Avian (bird)
New, emerging, or unusual animal diseases or disease clusters with potential public health significance.	Avian (bird)
Newcastle disease	Avian (bird)
Ornithosis (psittacosis, parrot fever, or avian chlamydiosis) (<i>Chlamydia psittaci</i>)	Avian (bird)
Pullorum disease (<i>Salmonella Pullorum</i>)	Avian (bird)
Turkey rhinotracheitis	Avian (bird)
Unexplained increase in dead or diseased animals	Avian (bird)
West Nile virus	Avian (bird)
Akabane disease (Akabane virus)	Bovine (cow)
Anthrax	Bovine (cow)

Disease Name	Species Name
Beef measles (<i>Taenia saginata</i>)	Bovine (cow)
Bluetongue (Orbivirus)	Bovine (cow)
Bovine anaplasmosis (<i>Anaplasma marginale</i> , <i>A. centrale</i>)	Bovine (cow)
Bovine babesiosis (piroplasmiasis, Tick Fever) (<i>Babesia bovis</i> , <i>B. bigemina</i>)	Bovine (cow)
Bovine genital campylobacteriosis (<i>Campylobacter fetus venerealis</i>)	Bovine (cow)
Bovine spongiform encephalopathy (BSE, mad cow)	Bovine (cow)
Bovine viral diarrhea (BVD, mucosal disease)	Bovine (cow)
Brucellosis (<i>Brucella abortus</i>)	Bovine (cow)
Contagious bovine pleuropneumonia (<i>Mycoplasma mycoides mycoides</i>)	Bovine (cow)
Crimean Congo haemorrhagic fever	Bovine (cow)
Cryptococcus (undifferentiated species not identified as <i>C. neoformans</i>)	Bovine (cow)
<i>Cryptococcus gattii</i>	Bovine (cow)
Enzootic bovine leukosis (Bovine leukemia virus, BLV)	Bovine (cow)
Epizootic hemorrhagic disease	Bovine (cow)
Foot-and-mouth disease (FMD)	Bovine (cow)
Haemorrhagic septicaemia (<i>Pasteurella multocida</i> , serotypes B/Asian or E/African)	Bovine (cow)
Heartwater (Cowdriosis) (<i>Ehrlichia ruminantium</i>)	Bovine (cow)
Infectious bovine rhinotracheitis (IBR, Infectious pustular vulvovaginitis)	Bovine (cow)
Jamestown Canyon virus (JCV, California serogroup)	Bovine (cow)
Johne's disease (paratuberculosis)	Bovine (cow)
Leptospirosis	Bovine (cow)
Listeriosis	Bovine (cow)
Livestock exposed to toxic substances which may threaten public health	Bovine (cow)
Lumpy skin disease	Bovine (cow)
Lyme Disease	Bovine (cow)
Malignant catarrhal fever	Bovine (cow)
Melioidosis (<i>Burkholderia pseudomallei</i>)	Bovine (cow)
New, emerging, or unusual animal diseases or disease clusters with potential public health significance.	Bovine (cow)
Pseudorabies (Aujeszky's disease)	Bovine (cow)
Q Fever (<i>Coxiella burnetii</i>)	Bovine (cow)
Rabies	Bovine (cow)
Rift Valley fever	Bovine (cow)
Rinderpest (cattle plague)	Bovine (cow)
Salmonellosis	Bovine (cow)
Screwworm, new world (<i>Cochliomyia hominivorax</i>)	Bovine (cow)
Screwworm, old world (<i>Chrysomya bezziana</i>)	Bovine (cow)
Snowshoe hare virus (SSHV, California serogroup)	Bovine (cow)

Disease Name	Species Name
Surra (<i>Trypanosoma evansi</i>)	Bovine (cow)
Theileriosis (Corridor disease, East Coast fever) (<i>Theileria annulata</i> , <i>T. parva</i>)	Bovine (cow)
Trichomoniasis (<i>Tritrichomonas fetus</i>)	Bovine (cow)
Trypanosomiasis (Tsetse fly diseases)(<i>Trypanosoma congolense</i> , <i>T. vivax</i> , <i>T. brucei</i> , <i>brucei</i> , <i>T. evansi</i>)	Bovine (cow)
Tuberculosis (<i>Mycobacterium bovis</i>)	Bovine (cow)
Unexplained increase in dead or diseased animals	Bovine (cow)
Vesicular stomatitis	Bovine (cow)
Anthrax	Camelid (camel)
Bluetongue (Orbivirus)	Camelid (camel)
Camelpox	Camelid (camel)
Cryptococcus (undifferentiated species not identified as <i>C. neoformans</i>)	Camelid (camel)
Cryptococcus <i>gattii</i>	Camelid (camel)
Foot-and-mouth disease (FMD)	Camelid (camel)
Leptospirosis	Camelid (camel)
Listeriosis	Camelid (camel)
Livestock exposed to toxic substances which may threaten public health	Camelid (camel)
Plague (<i>Yersinia pestis</i>)	Camelid (camel)
Rabies	Camelid (camel)
Rift Valley fever	Camelid (camel)
Rinderpest (cattle plague)	Camelid (camel)
Salmonellosis	Camelid (camel)
Screwworm, new world (<i>Cochliomyia hominivorax</i>)	Camelid (camel)
Screwworm, old world (<i>Chrysomya bezziana</i>)	Camelid (camel)
Surra (<i>Trypanosoma evansi</i>)	Camelid (camel)
Unexplained increase in dead or diseased animals	Camelid (camel)
Vesicular stomatitis	Camelid (camel)
Anthrax	Canine (dog)
Brucellosis (<i>Brucella canis</i>)	Canine (dog)
Coccidioidomycosis (<i>Coccidioides immitis</i>) (valley fever)	Canine (dog)
Cryptococcus <i>gattii</i>	Canine (dog)
Cryptococcus(undifferentiated species not identified as <i>C. neoformans</i>)	Canine (dog)
Echinococcosis/Hydatidosis (<i>Echinococcus granulosus</i>)	Canine (dog)
Echinococcosis/Hydatidosis (<i>Echinococcus multilocularis</i>)	Canine (dog)
Ehrlichia (species)	Canine (dog)
Heartworm	Canine (dog)
Leishmaniasis	Canine (dog)
Leptospirosis	Canine (dog)
Listeriosis	Canine (dog)

Disease Name	Species Name
Lyme Disease	Canine (dog)
Melioidosis (<i>Burkholderia pseudomallei</i>)	Canine (dog)
Pseudorabies (Aujeszky's disease)	Canine (dog)
Q Fever (<i>Coxiella burnetti</i>)	Canine (dog)
Rabies	Canine (dog)
Rift Valley fever	Canine (dog)
Salmonellosis	Canine (dog)
Scabies	Canine (dog)
Screwworm, new world (<i>Cochliomyia hominivorax</i>)	Canine (dog)
Screwworm, old world (<i>Chrysomya bezziana</i>)	Canine (dog)
Surra (<i>Trypanosoma evansi</i>)	Canine (dog)
Unexplained increase in dead or diseased animals	Canine (dog)
West Nile virus	Canine (dog)
Akabane disease (Akabane virus)	Caprine (goat)
Anthrax	Caprine (goat)
Bluetongue (Orbivirus)	Caprine (goat)
Brucellosis (<i>Brucella abortus</i>)	Caprine (goat)
Brucellosis (<i>Brucella melitensis</i>)	Caprine (goat)
Caprine (contagious) arthritis/encephalitis (CAE)	Caprine (goat)
Caseous lymphadenitis	Caprine (goat)
Contagious agalactia (<i>Mycoplasma agalactiae</i> , <i>M. Capricolum capricolum</i> , <i>M. putrefaciens</i> , <i>M. mycoides mycoide</i> , <i>M. mycoides mycoides</i> LC)	Caprine (goat)
Contagious caprine pleuropneumonia (<i>Mycoplasma capricolum capripneumoniae</i>)	Caprine (goat)
Contagious ecthyma (Orf)	Caprine (goat)
Crimean Congo haemorrhagic fever	Caprine (goat)
Cryptococcus (undifferentiated species not identified as <i>C. neoformans</i>)	Caprine (goat)
Cryptococcus <i>gattii</i>	Caprine (goat)
Enzootic abortion of ewes (ovine chlamydiosis) (<i>Chlamydophila abortus</i>)	Caprine (goat)
Foot-and-mouth disease (FMD)	Caprine (goat)
Goat pox	Caprine (goat)
Heartwater (Cowdriosis) (<i>Ehrlichia ruminantium</i>)	Caprine (goat)
Johne's disease (paratuberculosis)	Caprine (goat)
La Crosse virus	Caprine (goat)
Leptospirosis	Caprine (goat)
Listeriosis	Caprine (goat)
Livestock exposed to toxic substances which may threaten public health	Caprine (goat)
Maedi-Visna (Ovine progressive pneumonia, OPP)	Caprine (goat)
Malignant catarrhal fever	Caprine (goat)

Disease Name	Species Name
Mange (<i>Sarcoptes scabiei</i> , <i>Chorioptes bovis</i> , <i>Psoroptes ovis</i> , <i>Psoroptes cuniculi</i> , <i>Psoregates ovis</i>)	Caprine (goat)
Melioidosis (<i>Burkholderia pseudomallei</i>)	Caprine (goat)
Nairobi sheep disease	Caprine (goat)
Peste des petits ruminants	Caprine (goat)
Plague (<i>Yersinia pestis</i>)	Caprine (goat)
Pseudorabies (Aujeszky's disease)	Caprine (goat)
Q Fever (<i>Coxiella burnetti</i>)	Caprine (goat)
Rabies	Caprine (goat)
Rift Valley fever	Caprine (goat)
Rinderpest (cattle plague)	Caprine (goat)
Salmonellosis (<i>Salmonella abortus ovis</i>)	Caprine (goat)
Scrapie	Caprine (goat)
Screwworm, new world (<i>Cochliomyia hominivorax</i>)	Caprine (goat)
Screwworm, old world (<i>Chrysomya bezziana</i>)	Caprine (goat)
Sheep pox (Goat pox)	Caprine (goat)
Surra (<i>Trypanosoma evansi</i>)	Caprine (goat)
Theileriosis (Corridor disease, East Coast fever) (<i>Theileria annulata</i> , <i>T. parva</i>)	Caprine (goat)
Unexplained increase in dead or diseased animals	Caprine (goat)
Vesicular stomatitis	Caprine (goat)
Adenovirus hemorrhagic disease	Cervine (deer)
Anthrax	Cervine (deer)
Bluetongue (Orbivirus)	Cervine (deer)
Brucellosis (<i>Brucella abortus</i>)	Cervine (deer)
Chronic wasting disease (CWD)	Cervine (deer)
Ehrlichia (species)	Cervine (deer)
Epizootic hemorrhagic disease	Cervine (deer)
Foot-and-mouth disease (FMD)	Cervine (deer)
Jamestown Canyon virus (JCV, California serogroup)	Cervine (deer)
La Crosse virus	Cervine (deer)
Leptospirosis	Cervine (deer)
Malignant catarrhal fever	Cervine (deer)
Ovine epididymitis (<i>Brucella ovis</i>)	Cervine (deer)
Rabies	Cervine (deer)
Rift Valley fever	Cervine (deer)
Screwworm, new world (<i>Cochliomyia hominivorax</i>)	Cervine (deer)
Screwworm, old world (<i>Chrysomya bezziana</i>)	Cervine (deer)
Surra (<i>Trypanosoma evansi</i>)	Cervine (deer)
Tuberculosis (<i>Mycobacterium bovis</i>)	Cervine (deer)

Disease Name	Species Name
Unexplained increase in dead or diseased animals	Cervine (deer)
Vesicular stomatitis	Cervine (deer)
Acute hepatopancreatic necrosis disease (<i>Vibrio parahaemolyticus</i>)	Crustacean
Infection with <i>Aphanomyces astaci</i> (crayfish plague)	Crustacean
Infection with <i>Hepatobacter penaei</i> (necrotising hepatopancreatitis)	Crustacean
Infection with infectious hypodermal and haematopoietic necrosis virus	Crustacean
Infection with infectious myonecrosis virus	Crustacean
Infection with <i>Macrobrachium rosenbergii</i> nodavirus (white tail disease)	Crustacean
Infection with Taura syndrome virus	Crustacean
Infection with white spot syndrome virus (white spot syndrome virus)	Crustacean
Infection with yellow head virus genotype 1	Crustacean
Unexplained increase in dead or diseased animals	Crustacean
African horse sickness	Equine (horse)
Anthrax	Equine (horse)
Contagious equine metritis (CEM) (<i>Taylorella equigenitalis</i>)	Equine (horse)
<i>Cryptococcus</i> (undifferentiated species not identified as <i>C. neoformans</i>)	Equine (horse)
<i>Cryptococcus gattii</i>	Equine (horse)
Dourine (<i>Trypanosoma equiperdum</i>)	Equine (horse)
Ehrlichiosis (Potomac horse fever)	Equine (horse)
Equine encephalomyelitis (Eastern) (EEE)	Equine (horse)
Equine encephalomyelitis (Venezuelan) (VEE)	Equine (horse)
Equine encephalomyelitis (Western) (WEE)	Equine (horse)
Equine infectious anemia (EIA, swamp fever)	Equine (horse)
Equine influenza	Equine (horse)
Equine piroplasmiasis (babesiosis, Theileriosis)(<i>Babesia caballi</i> , <i>Theileria equi</i>)	Equine (horse)
Equine rhinopneumonitis (Equine herpesvirus-1, EHV-1)	Equine (horse)
Equine rhinopneumonitis (Equine herpesvirus-1, neurologic form) (EHV-1 myelocencephalopathy, EHV-1-EHM)	Equine (horse)
Equine rhinopneumonitis (Equine herpesvirus-1, non-neurologic form) (EHV-1 myelocencephalopathy, EHV-1-EHM)	Equine (horse)
Equine viral arteritis (EVA)	Equine (horse)
Glanders (<i>Burkholderia mallei</i>)	Equine (horse)
Hendra virus (Equine morbillivirus)	Equine (horse)
Jamestown Canyon virus (JCV, California serogroup)	Equine (horse)
Japanese encephalitis	Equine (horse)
Leishmaniasis	Equine (horse)
Leptospirosis	Equine (horse)
Listeriosis	Equine (horse)
Livestock exposed to toxic substances which may threaten public health	Equine (horse)

Disease Name	Species Name
Lyme Disease	Equine (horse)
Melioidosis (<i>Burkholderia pseudomallei</i>)	Equine (horse)
Pigeon Fever (<i>Corynebacterium pseudotuberculosis</i>) (ulcerative lymphangitis)	Equine (horse)
Rabies	Equine (horse)
Salmonellosis	Equine (horse)
Screwworm, new world (<i>Cochliomyia hominivorax</i>)	Equine (horse)
Screwworm, old world (<i>Chrysomya bezziana</i>)	Equine (horse)
Snowshoe hare virus (SSHV, California serogroup)	Equine (horse)
Strangles (<i>Streptococcus equi</i> subsp. <i>equi</i>)	Equine (horse)
Surra (<i>Trypanosoma evansi</i>)	Equine (horse)
Unexplained increase in dead or diseased animals	Equine (horse)
Vesicular stomatitis	Equine (horse)
West Nile virus	Equine (horse)
Coccidioidomycosis (<i>Coccidioides immitis</i>) (valley fever)	Feline (cat)
<i>Cryptococcus gattii</i>	Feline (cat)
<i>Cryptococcus</i> (undifferentiated species not identified as <i>C. neoformans</i>)	Feline (cat)
Heartworm	Feline (cat)
Leishmaniasis	Feline (cat)
Listeriosis	Feline (cat)
Melioidosis (<i>Burkholderia pseudomallei</i>)	Feline (cat)
Plague (<i>Yersinia pestis</i>)	Feline (cat)
Pseudorabies (Aujeszky's disease)	Feline (cat)
Q Fever (<i>Coxiella burnetti</i>)	Feline (cat)
Rabies	Feline (cat)
Rift Valley fever	Feline (cat)
Salmonellosis	Feline (cat)
Screwworm, new world (<i>Cochliomyia hominivorax</i>)	Feline (cat)
Screwworm, old world (<i>Chrysomya bezziana</i>)	Feline (cat)
Surra (<i>Trypanosoma evansi</i>)	Feline (cat)
Unexplained increase in dead or diseased animals	Feline (cat)
West Nile virus	Feline (cat)
Anthrax	Lagomorphic (hare, rabbit, pika)
Crimean Congo haemorrhagic fever	Lagomorphic (hare, rabbit, pika)
Listeriosis	Lagomorphic (hare, rabbit, pika)
Myxomatosis	Lagomorphic (hare, rabbit, pika)

Disease Name	Species Name
Plague (<i>Yersinia pestis</i>)	Lagomorphic (hare, rabbit, pika)
Screwworm, new world (<i>Cochliomyia hominivorax</i>)	Lagomorphic (hare, rabbit, pika)
Screwworm, old world (<i>Chrysomya bezziana</i>)	Lagomorphic (hare, rabbit, pika)
Snowshoe hare virus (SSHV, California serogroup)	Lagomorphic (hare, rabbit, pika)
Tularemia (<i>Francisella tularensis</i>)	Lagomorphic (hare, rabbit, pika)
Unexplained increase in dead or diseased animals	Lagomorphic (hare, rabbit, pika)
Viral hemorrhagic disease of rabbits (Rabbit hemorrhagic disease, RHD) (calicivirus)	Lagomorphic (hare, rabbit, pika)
West Nile virus	Lagomorphic (hare, rabbit, pika)
Infection with abalone herpesvirus	Mollusc
Infection with <i>Bonamia exitiosa</i>	Mollusc
Infection with <i>Bonamia ostreae</i>	Mollusc
Infection with <i>Marteilia refringens</i>	Mollusc
Infection with <i>Perkinsus marinus</i>	Mollusc
Infection with <i>Perkinsus olseni</i>	Mollusc
Infection with <i>Xenohalictis californiensis</i>	Mollusc
Unexplained increase in dead or diseased animals	Mollusc
Akabane disease (Akabane virus)	Multiple Species
Anthrax	Multiple Species
Bluetongue (Orbivirus)	Multiple Species
Brucellosis	Multiple Species
Brucellosis (<i>Brucella abortus</i>)	Multiple Species
Brucellosis (<i>Brucella canis</i>)	Multiple Species
Brucellosis (<i>Brucella melitensis</i>)	Multiple Species
Brucellosis (<i>Brucella ovis</i>)	Multiple Species
Brucellosis (<i>Brucella suis</i>)	Multiple Species
Chikungunya	Multiple Species
Coccidioidomycosis (<i>Coccidioides immitis</i>) (valley fever)	Multiple Species
Crimean Congo haemorrhagic fever	Multiple Species
<i>Cryptococcus gattii</i>	Multiple Species
<i>Cryptococcus</i> (undifferentiated species not identified as <i>C. neoformans</i>)	Multiple Species
Dengue	Multiple Species
Echinococcosis/Hydatidosis	Multiple Species

Disease Name	Species Name
Echinococcosis/Hydatidosis (<i>Echinococcus granulosus</i>)	Multiple Species
Echinococcosis/Hydatidosis (<i>Echinococcus multilocularis</i>)	Multiple Species
Ehrlichiosis (<i>Ehrlichia</i> species)	Multiple Species
Epizootic hemorrhagic disease	Multiple Species
Equine encephalomyelitis	Multiple Species
Equine encephalomyelitis (Eastern) (EEE)	Multiple Species
Equine encephalomyelitis (Venezuelan) (EEE)	Multiple Species
Equine encephalomyelitis (Western) (WEE)	Multiple Species
Foot-and-mouth disease (FMD)	Multiple Species
Heartwater (Cowdriosis) (<i>Ehrlichia ruminantium</i>)	Multiple Species
Heartworm	Multiple Species
Jamestown Canyon virus (JCV, California serogroup)	Multiple Species
Japanese encephalitis	Multiple Species
Johne's disease (paratuberculosis)	Multiple Species
La Crosse virus	Multiple Species
Leishmaniasis	Multiple Species
Leptospirosis	Multiple Species
Listeriosis	Multiple Species
Livestock exposed to toxic substances which may threaten public health	Multiple Species
Lyme Disease	Multiple Species
Malignant catarrhal fever	Multiple Species
Melioidosis (<i>Burkholderia pseudomallei</i>)	Multiple Species
New, emerging, or unusual animal diseases or disease clusters with potential public health significance.	Multiple Species
Plague (<i>Yersinia pestis</i>)	Multiple Species
Pseudorabies (Aujeszky's disease)	Multiple Species
Q Fever (<i>Coxiella burnetti</i>)	Multiple Species
Rabies	Multiple Species
Rift Valley fever	Multiple Species
Rinderpest (cattle plague)	Multiple Species
Salmonellosis	Multiple Species
Scabies	Multiple Species
Screwworm	Multiple Species
Screwworm, new world (<i>Cochliomyia hominivorax</i>)	Multiple Species
Screwworm, old world (<i>Chrysomya bezziana</i>)	Multiple Species
Shiga toxin-producing <i>Escherichia coli</i> infections/enterohemorrhagic <i>E. coli</i> infections	Multiple Species
Snowshoe hare virus (SSHV, California serogroup)	Multiple Species
Surra (<i>Trypanosoma evansi</i>)	Multiple Species

Disease Name	Species Name
Theileriosis (Corridor disease, East Coast fever) (<i>Theileria annulata</i> , <i>T. parva</i>)	Multiple Species
Transmissible Spongiform Encephalopathy	Multiple Species
Trichinellosis (<i>Trichinella</i> spp.) (Trichinosis)	Multiple Species
Tuberculosis	Multiple Species
Tuberculosis (<i>Mycobacterium avium</i>)	Multiple Species
Tuberculosis (<i>Mycobacterium tuberculosis</i>)	Multiple Species
Tularemia (<i>Francisella tularensis</i>)	Multiple Species
Unexplained increase in dead or diseased animals	Multiple Species
Vancomycin resistant (<i>Staphylococcus aureus</i>)	Multiple Species
Vesicular stomatitis	Multiple Species
West Nile virus	Multiple Species
Zika	Multiple Species
Zoonotic Viral Hemorrhagic Fever	Multiple Species
Akabane disease (<i>Akabane virus</i>)	Ovine (sheep)
Anthrax	Ovine (sheep)
Bluetongue (<i>Orbivirus</i>)	Ovine (sheep)
Brucellosis (<i>Brucella abortus</i>)	Ovine (sheep)
Brucellosis (<i>Brucella melitensis</i>)	Ovine (sheep)
Brucellosis (<i>Brucella ovis</i>) (<i>Brucella ovis</i> infection)	Ovine (sheep)
Caprine (contagious) arthritis/encephalitis (CAE)	Ovine (sheep)
Caseous lymphadenitis	Ovine (sheep)
Contagious agalactia (<i>Mycoplasma agalactiae</i> , <i>M. Capricolum capricolum</i> , <i>M. putrefaciens</i> , <i>M. mycoides mycoide</i> , <i>M. mycoides mycoides</i> LC)	Ovine (sheep)
Contagious caprine pleuropneumonia (<i>Mycoplasma capricolum capripneumoniae</i>)	Ovine (sheep)
Contagious ecthyma (Orf)	Ovine (sheep)
Crimean Congo haemorrhagic fever	Ovine (sheep)
Cryptococcus (undifferentiated species not identified as <i>C. neoformans</i>)	Ovine (sheep)
<i>Cryptococcus gattii</i>	Ovine (sheep)
Echinococcosis/Hydatidosis (<i>Echinococcus granulosus</i>)	Ovine (sheep)
Echinococcosis/Hydatidosis (<i>Echinococcus multilocularis</i>)	Ovine (sheep)
Enzootic abortion of ewes (ovine chlamydiosis) (<i>Chlamydia abortus</i>)	Ovine (sheep)
Foot-and-mouth disease (FMD)	Ovine (sheep)
Goat pox (Sheep pox)	Ovine (sheep)
Heartwater (Cowdriosis) (<i>Ehrlichia ruminantium</i>)	Ovine (sheep)
Jamestown Canyon virus (JCV, California serogroup)	Ovine (sheep)
Johne's disease (paratuberculosis)	Ovine (sheep)
Leptospirosis	Ovine (sheep)
Listeriosis	Ovine (sheep)

Disease Name	Species Name
Livestock exposed to toxic substances which may threaten public health	Ovine (sheep)
Maedi-Visna (Ovine progressive pneumonia, OPP)	Ovine (sheep)
Malignant catarrhal fever	Ovine (sheep)
Mange (Sarcoptes scabiei, Chorioptes bovis, Psoroptes ovis, Psoroptes cuniculi, Psoregates ovis)	Ovine (sheep)
Melioidosis (Burkholderia pseudomallei)	Ovine (sheep)
Nairobi sheep disease	Ovine (sheep)
New, emerging, or unusual animal diseases or disease clusters with potential public health significance.	Ovine (sheep)
Peste des petits ruminants	Ovine (sheep)
Plague (Yersinia pestis)	Ovine (sheep)
Pseudorabies (Aujeszky's disease)	Ovine (sheep)
Q Fever (Coxiella burnetti)	Ovine (sheep)
Rabies	Ovine (sheep)
Rift Valley fever	Ovine (sheep)
Rinderpest (cattle plague)	Ovine (sheep)
Salmonellosis (Salmonella abortus ovis)	Ovine (sheep)
Scrapie	Ovine (sheep)
Screwworm, new world (Cochliomyia hominivorax)	Ovine (sheep)
Screwworm, old world (Chrysomya bezziana)	Ovine (sheep)
Sheep pox	Ovine (sheep)
Snowshoe hare virus (SSHV, California serogroup)	Ovine (sheep)
Surra (Trypanosoma evansi)	Ovine (sheep)
Theileriosis (Corridor disease, East Coast fever) (Theileria annulata, T. parva)	Ovine (sheep)
Unexplained increase in dead or diseased animals	Ovine (sheep)
Vesicular stomatitis	Ovine (sheep)
Epizootic haematopoietic necrosis disease	Piscine (fish)
Infection with Aphanomyces invadans (epizootic ulcerative syndrome, EUS))	Piscine (fish)
Infection with Gyrodactylus salaris (Gyrodactylosis)	Piscine (fish)
Infection with HPR-deleted or HPRO infectious salmon anaemia virus	Piscine (fish)
Infection with salmonid alphavirus	Piscine (fish)
Infectious haematopoietic necrosis (IHN)	Piscine (fish)
Koi herpesvirus disease	Piscine (fish)
New, emerging, or unusual animal diseases or disease clusters with potential public health significance.	Piscine (fish)
Red sea bream iridoviral disease	Piscine (fish)
Spring viraemia of carp (SVC)	Piscine (fish)
Tilapia Lake Virus (TiLV) (Tilapia tilapinevirus)	Piscine (fish)
Unexplained increase in dead or diseased animals	Piscine (fish)
Viral haemorrhagic septicaemia (VHS)	Piscine (fish)

Disease Name	Species Name
African swine fever (ASF)	Porcine (pig)
Anthrax	Porcine (pig)
Brucellosis (<i>Brucella suis</i>)	Porcine (pig)
Classical swine fever (hog cholera)	Porcine (pig)
Cryptococcus (undifferentiated species not identified as <i>C. neoformans</i>)	Porcine (pig)
<i>Cryptococcus gattii</i>	Porcine (pig)
Foot-and-mouth disease (FMD)	Porcine (pig)
Japanese encephalitis	Porcine (pig)
Leptospirosis	Porcine (pig)
Listeriosis	Porcine (pig)
Livestock exposed to toxic substances which may threaten public health	Porcine (pig)
Malignant catarrhal fever	Porcine (pig)
Melioidosis (<i>Burkholderia pseudomallei</i>)	Porcine (pig)
New, emerging, or unusual animal diseases or disease clusters with potential public health significance.	Porcine (pig)
Nipah virus	Porcine (pig)
Porcine circovirus (post-weaning multisystemic wasting syndrome)	Porcine (pig)
Porcine cysticercosis (<i>Taenia solium</i>)	Porcine (pig)
Porcine epidemic diarrhea virus (PEDv)	Porcine (pig)
Porcine reproductive and respiratory syndrome (PRRS)	Porcine (pig)
Pseudorabies (Aujeszky's disease)	Porcine (pig)
Q Fever (<i>Coxiella burnetti</i>)	Porcine (pig)
Rabies	Porcine (pig)
Rinderpest (cattle plague)	Porcine (pig)
Salmonellosis	Porcine (pig)
Screwworm, new world (<i>Cochliomyia hominivorax</i>)	Porcine (pig)
Screwworm, old world (<i>Chrysomya bezziana</i>)	Porcine (pig)
Surra (<i>Trypanosoma evansi</i>)	Porcine (pig)
Swine influenza	Porcine (pig)
Swine vesicular disease	Porcine (pig)
Transmissible gastroenteritis (TGE) (coronavirus)	Porcine (pig)
Trichinellosis (Trichinosis) (<i>Trichinella spiralis</i>)	Porcine (pig)
Unexplained increase in dead or diseased animals	Porcine (pig)
Vesicular exanthema of swine	Porcine (pig)
Vesicular stomatitis	Porcine (pig)
New, emerging, or unusual animal diseases or disease clusters with potential public health significance.	Reptilian
Salmonellosis	Reptilian
Unexplained increase in dead or diseased animals	Reptilian

Disease Name	Species Name
Anthrax	Rodent
Foot-and-mouth disease (FMD)	Rodent
La Crosse virus	Rodent
Leishmaniasis	Rodent
Listeriosis	Rodent
New, emerging, or unusual animal diseases or disease clusters with potential public health significance.	Rodent
Plague (<i>Yersinia pestis</i>)	Rodent
Q Fever (<i>Coxiella burnetti</i>)	Rodent
Rift Valley fever	Rodent
Salmonellosis	Rodent
Unexplained increase in dead or diseased animals	Rodent
