

Questions

- Team Paragon - Ani, Greg, Dela, Jordan
- How does the virus spread?(common object, direct contact)
- How fast is the virus spreading? - rate of spread
- How high does Jane's susceptibility rate increase?(dv/dt)

Team Paragon

- **Team Paragon - Ani, Greg, Dela, Jordan**
- **What we have done so far:**
 1. Ran successful code for Joe, Jane's interaction with Joe, and a random population of 100 people.
 2. Created a population of 100 people where each person interacts with 10 people
 3. Created a sick person list that generates 10 random people - not fully working yet.
- **Goal - How fast does the virus spread:**
 1. We will introduce a vaccine to slow the virus spread
 2. We will change the amount of days people stay sick for
